The International Conference
on IP + Optical Network (iPOP2006)
GMPLS Interoperability Public Demonstration,
Exhibition and Conference

GUIDE FOR EXHIBITORS

You are invited to exhibit at the international conference on IP + Optical network (iPOP2006), June 22-23, 2006, at the Meiji Kinenkan in Tokyo, Japan.

The conference is intended to share among the industry and the academia communities, the knowledge, new findings, and experience on the state-of-the-art of "IP and Optical Networking technologies". Within this theme we intend to demonstrate GMPLS network equipment (IP routers, SONET/SDH XC's, Optical/Photonic XC's), GMPLS protocol test equipment, GMPLS network operation support tools, Optical Switches, and other related issues. Additionally, we will provide a iPOP Interop Showcase.

The iPOP 2006 anticipates a draw of over 200 attendees, made up of network operators, service providers, and equipment vendors.

Join us and other industry leaders in the IP + Optical network technologies and leading source of industry information for GMPLS technologies.

The early bird deadline for exhibitors is March 1, 2006.

For booth reservation and all other requests, please contact iPOP 2006 Exhibition Secretaries (ipop2006-exhibition@pilab.org).

Exhibit space is limited and will be committed on a first-come first-serve basis.
