The International Conference
on IP+Optical Network(iPOP2007)
Exhibition and Conference

- GUIDE FOR EXHIBITORS -

You are invited to exhibit at the international conference on IP+Optical network (iPOP2007), June 7-8, 2007, at the NTT Musashino R&D Center in Tokyo, Japan. The conference is intended to share among the industry and the academia communities, the knowledge, new findings, and experience on the state-of-the-art of "IP and Optical Networking technologies."

Within the theme we intend to demonstrate GMPLS network equipment (IP routers SONET/SDH XCs, Optical/Photonic XCs), GMPLS protocol test equipment, GMPLS network operation support tools, optical switches, and other related issues. The iPOP2007 anticipates a draw of over 200 attendees, made up of network operators, service providers, and equipment vendors.

Join us and other industry leaders in the IP+Optical network technologies and leading source of industry information for GMPLS technologies.

For booth reservation and all other requests, please contact iPOP 2007 Exhibition Secretaries (ipop2007-exhibition@pilab.jp).

Exhibit space is limited and will be committed on a first-come first-serve basis.
