

Isocore's Net-Centric 2016 Huge Success!

RESTON, VA –

Isocore's annual conference on SDN/MPLS/NFV held October 2016 attracted the highest number of attendees from Service Providers.

We would like to thank everyone for their support in making Net-Centric 2016 the leading event in emerging solutions and technologies. We could not have done it without the support of our sponsors, speakers, and attendees.

We look forward to seeing you next year October 22-25, 2017!
